

# Cloud Computing Arrangements: ASU 2018-15 Considerations in a Rapidly Changing World

GWSCPA Not-for-Profit Symposium  
November 2, 2023

Presented by:  
**Jim Heller, Senior Manager, Finance- FP&A IT**  
American Chemical Society

**Neil Pal, Senior Director of Finance**  
American Chemical Society

**Diana Connolly, Professional Practice Director**  
O'Connor Consulting Services

# Overview of Today's Session

- ▶ Discuss the requirements and real-world challenges of applying ASU 2018-15 for cloud computing arrangements that are service contracts, including:
  - ▶ Evaluating whether a hosting arrangement is a service contract.
  - ▶ Identifying implementation costs to capitalize.
  - ▶ Determining the amortization period.
  - ▶ Recognizing impairment and abandonment.
  - ▶ Reporting capitalized costs and related amortization.

# ASU 2018-15:

## Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract

Issued in August 2018

Effective for all entities by or before 2022

Updates the definition of a Hosting Arrangement

Extends the applicability of the Internal-Use Software Subtopic (ASC 350-40) to “implementation costs of a Hosting Arrangement That is a Service Contract”

# ASC 350-40 Does Not Apply To:

Software to be sold, leased, or otherwise marketed as a separate product or as part of a product or process

Software to be used in research and development

Software developed for others under a contractual arrangement, subject to contract accounting standards

Accounting for costs of reengineering activities, which often are associated with new or upgraded software applications

# Rapidly Changing Cloud Environments

## Cloud Types

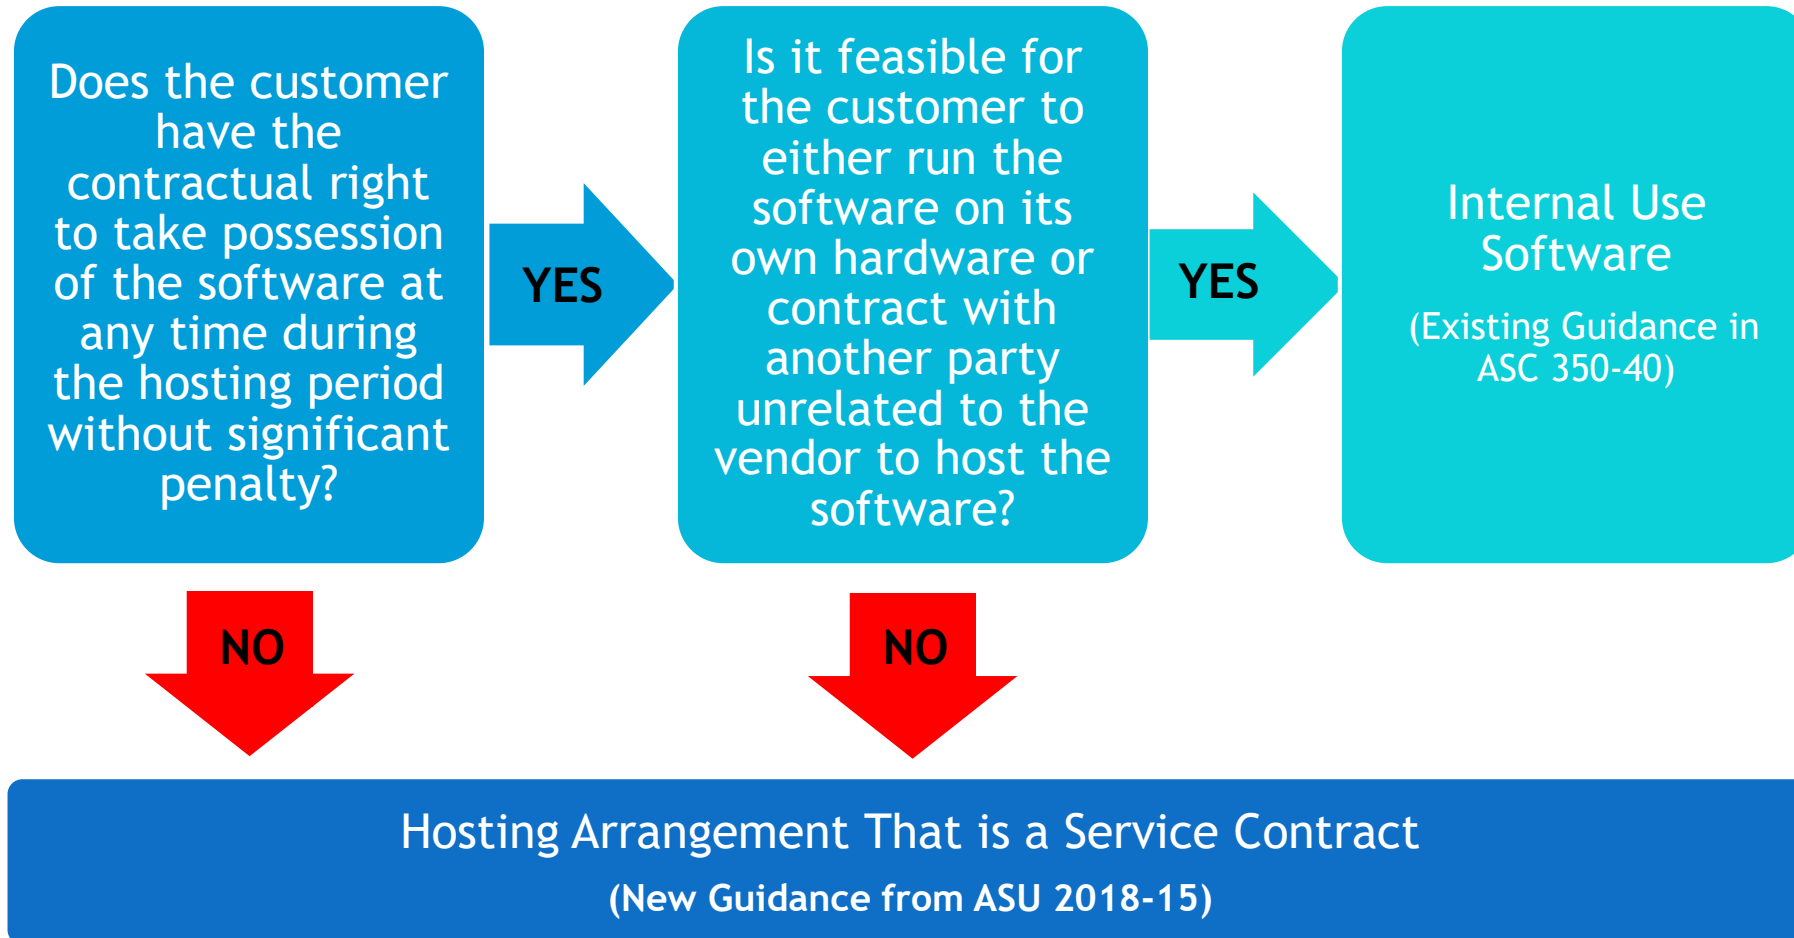

- Private Cloud
- Public Cloud
- Hybrid Clouds
- Multiclouds

## Cloud Computing Services

- SaaS: Software as a Service
- PaaS: Platform as a Service
- IaaS: Infrastructure as a Service

# Evaluating Hosting Arrangements

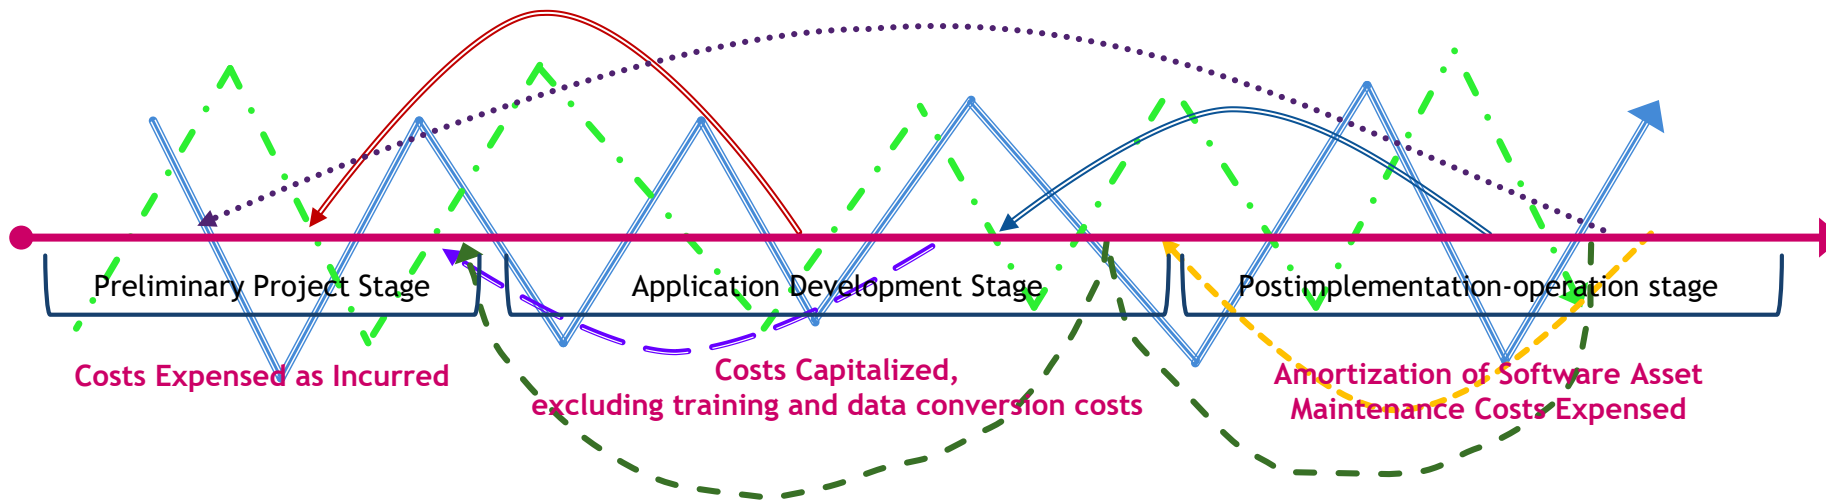

# Hosting Arrangement That is a Service Contract

## Costs to Capitalize

# Hosting Arrangement That is a Service Contract Costs to Capitalize

# Hosting Arrangement That is a Service Contract Determining the In-Service Date

1

Identify the modules or components of the hosting arrangement.

2

Determine when all substantial testing is completed.

3

Recognize dependencies on other modules or components.

# Hosting Arrangement That is a Service Contract Determining the Amortization Term

## The fixed noncancellable term of the hosting arrangement

PLUS: Periods covered by an option to extend, if reasonably certain to be exercised

PLUS: Periods covered by an option to terminate, if reasonably certain not to be exercised

PLUS: Periods covered by an option to extend (or not terminate) which is controlled by the vendor.

# Hosting Arrangement That is a Service Contract Reassessing the Amortization Term

Obsolescence

Technology

Competition

Other economic  
factors

Rapid changes  
in hosting  
arrangements

Significant  
implementation  
costs with value

# Hosting Arrangement That is a Service Contract Impairment and Abandonment

## Impairment

- Should be evaluated when one of the following events or changes in circumstances occurs:
  - The hosting arrangement is not expected to provide substantive service potential.
  - A significant change occurs in the extent or manner in which the hosting arrangement is used or is expected to be used.
  - A significant change is made or will be made to the hosting arrangement.

## Abandonment

- Asset must be accounted for as abandoned when it ceases to be used.
- Each module or component shall be evaluated separately as to when it ceases to be used.

# Hosting Arrangement That is a Service Contract

## Financial Statement Presentation

Amortization of capitalized costs are presented in the same line as the related hosting fees

Capitalized Implementation Costs are presented in the same line item as a prepayment for the related hosting fees

Disclosures are required as though the capitalized implementation costs were a separate major class of depreciable asset
